What do I need to know? Poster presentations

SIZE

We understand that some presenters might need to re-use their posters at other conferences with different dimension requirements or have cost limitations. To accommodate this, presenters may size their posters to fit within our minimum and maximum requirements.

- The minimum size for Discover USC posters, and for Graduation with Leadership Distinction eligibility, is 2 feet by 3 feet (oriented vertically or horizontally).
- To fully utilize your allotted space, the recommended size is four feet high by 3.5 feet wide (this size is typically used for research). These dimensions will allow two posters to fit side by side on the poster boards.
- The maximum allowable size is four feet by four feet (the outer vertical edge will curl around the display board if the poster is four-feet wide).
- Presenters are not permitted more than half the display board

Note: USC Connect offers poster templates for ideas on how you might showcase your experiences within and beyond the classroom. You can also create your own design instead of using a template.
