PARTICIPATE

Community Service

Related course
Carolina Reads, Services Saturdays, Carolina Science Outreach, Alternative Breaks

Why this is important
Community Service would be valuable for any and every major because it opens up opportunities for students to give of themselves to others. In the process of being involved in community service, students become aware of those less fortunate than themselves.

Peer Leadership

Student Organization(s)
Premedical and Dental Living/Learning Community; Association of Minority Pre-Health Students; Alpha Epsilon Delta (Pre-Professional Health honor Society); Supplemental Instruction Leader; University Ambassadors

Internships

Related Courses
An internship is a requirement of the CVT major.

Recommended sites/work experiences
Providence Hospital, Columbia, SC; University Hospital, Augusta, GA

Professional Organizations
AAHEP (Commission on Accreditation of Allied Health Education Programs; ARDMS (American Registry for Diagnostic Medical Sonography); CCI (Cardiovascular Credentialing International)

Why this is important
The student enters the internship portion of the major after all of the academic requirements have been met

LEAD

Initial career opportunities
Cardiovascular Technologist

Related graduate programs
Master of Health Science Diagnostic Cardiovascular Sonography; Master of Health Science in Diagnostic Medical Ultrasound; Master of Science in Cardiovascular Science

Future career opportunities
According to the U.S. Bureau of Labor Statistics, “employment is expected to grow much faster than the average; technologists with multiple professional credentials, trained to perform a wide range of procedures, will have the best prospects.”

The listed experiences are a sample of options for your major. See the USC Connect experiences database to search for more opportunities. www.sc.edu/usconnect/participate
