This list does not include every technical college course which is available for transfer to USC. You are not required to take all courses listed prior to transferring. Rather, it is a guide for you and your advisors.* You should be aware that courses must be passed with a grade of C or higher in order to be considered for transfer credit. You must have a GPA of 3.0 to be considered for admission and earned a C or higher in each required science course attempted to be considered for admission. Only one course in a required science course (or previously attempted nursing course) for which an unsatisfactory grade is earned may be repeated once to earn a grade of C or better to remain eligible for admission consideration and continuance in the nursing major.

The College of Nursing has continued to see an increase in applications for the lower division. Due to this unprecedented demand and space limitations, the University will not be able to admit all students who meet the minimum 3.0 GPA requirement for their intended term.
