What is the world like for teenagers? As adults, what is the best way we can help them thrive during adolescence and prepare for the future? Do the social crises they face and the emotional upheavals they experience preclude our helping them in their unfolding as human beings?

In **Teen Graffiti**, teenagers from all walks of life with varying cultural, educational, and family backgrounds talk honestly about issues they believe are important.

The rich dialogue in **Teen Graffiti** allows the video to be adapted to meet the needs of a wide range of individuals and groups.

- Parenting groups
- Church Youth Groups
- Health Organizations
- Teachers
- Guidance Counselors
- Social Workers

For parents of teenagers and professionals who work with teens, **Teen Graffiti** is an excellent tool to help encourage discussions and lead toward developing success strategies for teens.
