## Breaking the Maltreatment Disabilities Cycle

*ProNet: Breaking the Maltreatment Disabilities Cycle* is a video with discussion guide designed to support networks of professionals and families in better addressing the maltreatment of children with disabilities. A key characteristic of *ProNet* is its facilitative nature. The *ProNet* philosophy is based on the idea that communities of professionals and families possess the knowledge necessary to prevent and address maltreatment. As a community shares knowledge, it broadens its collective skills.

The tape and discussion guide can be used with professionals and/or parents.

### Video Tape Sections

- Attitudes: Learning of My Child's Disability
- Attitudes Toward People with Disabilities
- Connections Between Disabilities & Maltreatment
- How Disabilities Affect Families
- Family-Centered Practice
- When a Parent has a Disability
- School
- Success Stories
