

**COMMITTEE ON CURRICULA AND COURSES  
ANNUAL REPORT  
2002-2003 ACADEMIC YEAR**

In the 2002-2003 academic year the Committee on Curricula and Courses considered, approved and sent forward to either the Faculty Senate, the Graduate Council or the Admissions Committee:

- 87 new courses
- 7 experimental new (X) courses
- 20 course deletions
- 4 new majors
- 37 title changes
- 8 number changes
- 47 description changes
- 37 prerequisite changes
- 8 credit hour changes
- 4 cross-listings
- 27 curriculum changes
- 19 telecommunications
- 3 corequisite
- 1 new track in a major
- 2 changes in designator
- 1 change in grading

The Committee continued the revisions of the Course Curriculum Action forms in concert with the Graduate council and we are trying to add guides for writing a model syllabus and the course description. The 30-word limit for course descriptions has been dropped but it is important to continue to keep them clear and succinct.

Gary Blanpied will also be the Committee on Curricula and Courses chairperson for the 2003-2004 academic year. (Dept. of Physics & Astronomy, 777-2599, [blanpied@sc.edu](mailto:blanpied@sc.edu)).

The Committee wishes to thank Jeanna Luker for her invaluable contribution to the successful exercise of its mandate.

Respectfully submitted on this 28th day of July, 2003.

Gary Blanpied, Chair  
Committee on Curricula and Courses 2002-2003
