criminology and criminal justice. The degree requirements are based upon a strong foundation in the liberal arts and the social sciences. An array of professional criminal justice courses is offered to support the particular interests of various students. Students also are encouraged to participate in community service activities. Pursuant to this, the department provides information on opportunities for volunteer work and involvement in the criminal justice field.

Criminology and criminal justice majors who have completed 90 hours with a GPA of 3.50 are eligible for the accelerated degree program. Students in the accelerated program may take up to 9 hours of credit at the 700 level which will count toward both their undergraduate and graduate degrees.

Entrance Requirements

The Department of Criminology and Criminal Justice follows the general admission policies of the University. Should there be more applicants for the degree program than the number of spaces available, admission decisions will be competitive and may take into account the applicant's grade point average as well as other factors deemed indicative of the student's potential for success in the program.

Transfer Students. Transfer students from other institutions, other USC campuses, or other degree programs must have a cumulative GPA of 2.25 and a semester GPA of 2.00 on the last semester enrolled. Official transcripts of all academic work must be sent to the admissions office. These transcripts will be evaluated by the Department of Criminology and Criminal Justice for possible transfer credits. Only collegiate courses completed at accredited institutions will be considered, and credit transfer will be approved only where an analysis of the course level and content indicates that the work is appropriate for inclusion in a program of study offered by the department.

Progression Requirements

Students in the Department of Criminology and Criminal Justice are expected to make orderly progress toward a baccalaureate degree. To facilitate this, the department's undergraduate program is divided into upper and lower divisions.

1. Lower-division students are those who have earned fewer than 60 semester hours toward the degree or who do not meet admission requirements to the upper division. Lower-division students may not enroll in upper-division criminal justice (CRJU) courses, which include all CRJU courses numbered 700 and above.
