**Representing Bodies: Disability, Difference, and Identity**

There are hundreds of web sites added each month. There is information on almost everything. Some of it is useful, some of it misleading, and some just for pure enjoyment . Since web sites can be very fleeting, as soon as any list is published, the URL or web address may have disappeared by the time you go to look for the site. Try a web browser to see if the site has been moved to a new URL or perhaps you can find a new web site of equal value.
