College of Nursing
Columbia, South Carolina 29208**

**FOREWORD TO THE
GRADUATE STUDENT HANDBOOK
2007-2008**

We are pleased to provide you with the Student Handbook for the Graduate Programs in Nursing. Its purpose is to furnish a useful reference on many aspects of academic and student life at the College of Nursing and the University.

The Faculty of the College of Nursing are committed to guiding and assisting you in your academic career. You, in turn, have a responsibility to familiarize yourself with the policies and procedures of the College and University.

There are a number of resources available to assist you in meeting your academic and personal goals. This handbook provides information on many of those resources and policies specific to the College of Nursing. Comprehensive University policies and procedures are found in the [USC Graduate Studies Bulletin](#) and in the [Carolina Community](#), the University student policy manual.
