

South Carolina Assistive Technology Exchange

Need affordable assistive devices and equipment?
The South Carolina Assistive Technology
Exchange is the place to look!

The South Carolina Assistive Technology Program is excited to announce a new an online assistive technology recycling database.

- ⇒ It's free. It's fast. It's convenient. It's all in one place!
- ⇒ It's a virtual "shopping mall" of affordable equipment!
- ⇒ Register online at <http://www.scatpexchange.net/>. You don't have to have items to sell, give or find. You'll get a password and be in the system. If you don't have email, you can call SCATP to have your account information entered for you. Call (803) 935-5273 or toll free at (800) 915-4522.
- ⇒ If your agency has equipment that no one is using, you can list it in the SC AT Exchange. You can specify an area of the state or category of consumer who can receive your donation or sales.
- ⇒ Any device that assists a person with a disability to live more independently or safely may be submitted. We advise against selling (and buying) used software. If you decide to sell your used software through the Exchange, please comply with the terms outlined in the license agreement that accompanies the software.
- ⇒ **Note:** The South Carolina Assistive Technology Exchange cannot be used to advertise commercial products and services. It's designed for use by individuals seeking products and those who have items to donate or sell.

Thanks for your help as we
start a program that will make a difference
to South Carolinians who need assistive technology!
