September 17, 2015
Dr. Robert J. Davis, University of Virginia
(USC Eastman Lectureship)
“Transformations of Alcohols Derived from Renewable Biomass over Solid Catalysts”

September 24, 2015
Dr. Paul R. Van Tassel, Yale University
“Polyelectrolyte Films as Porous Biomolecular Delivery Systems”

October 22, 2015
Dr. Erik E. Santiso, NCSU
“Understanding the Nucleation of Molecular Crystals: Advances and Challenges”

November 19, 2015
Dr. Andrew J. Gellman, Carnegie Mellon
“Catalysis across Alloy Composition Space: AuxCuyPd1-x-y”

December 3, 2015
Dr. Jost Wendt, University of Utah
“Ash aerosol partitioning and ash deposition mechanisms during coal combustion”
USC DEPARTMENT OF CHEMICAL ENGINEERING
SPRING 2016 LECTURE SERIES

February 4, 2016
Dr. William Mustain, University of Connecticut

Department Seminar

February 11, 2016
Dr. Thomas M. Truskett, UT Austin

Department Seminar

February 25, 2016
Dr. Michael Strano, MIT

Energy Leadership Institute (ELI) Distinguished Speaker Series

March 3, 2016
Dr. Thomas F. Fuller, Georgia Tech

ECS Speaker

March 10, 2016
Dr. M. Hicham Drissi, University of Connecticut

Graduate Research Symposium Speaker

April 5, 2016
Dr. Israel E. Wachs, Lehigh University

Eastman Lecture Series
