The College of Nursing’s Cancer Survivorship Center 
3rd Wednesday Research Forum 
March 18, 2015, 12:00 pm - 1:00 pm, Room 402 

Speaker: Dr. Robert McKeown

Dr. McKeown began his public health career with the Arnold School of Public Health in 1990 and has served in various administrative positions throughout his tenure, including Associate Dean for Research and Chair of the Department of Epidemiology and Biostatistics. His research interests have included psychiatric epidemiology, perinatal epidemiology, child and adolescent health and public health ethics. Now retired, Dr. McKeown is working on a CDC-funded project focusing on attention deficit hyperactivity disorder (ADHD) in children.
