

**University of South Carolina  
Tenure Track Faculty Positions  
Assistant or Associate Professor**

The Arnold School of Public Health, University of South Carolina, Columbia, SC seeks qualified candidates for tenure-track faculty positions at the rank of Assistant or Associate Professor. The successful candidates will join health scientists in a large, rapid-learning health system in Greenville, SC, developing a program of applied population health, health services, community-clinical linkages, and implementation science research. There is 1 open tenure-track faculty position in epidemiology, 1 in biostatistics, and 1 in health promotion/health behavior. Postdoctoral experience in research and success in obtaining competitive grants is preferred as is experience conducting research in a clinical setting. Each successful candidate will be stationed in Greenville, SC, and will hold a tenure-track appointment at the assistant or associate professor level in the Department of Epidemiology and Biostatistics or Department of Health Promotion, Education, and Behavior depending on research focus, and will develop and lead a program of competitively funded research. An affiliate faculty appointment with the University of South Carolina School of Medicine-Greenville is possible depending on research and teaching interests.

The Arnold School of Public Health is fully accredited by the Council on Education for Public Health (CEPH). The Arnold School is a campus leader in interdisciplinary scholarship with ongoing collaborations with colleges, centers, and schools at the University. More information can be found at [www.sph.sc.edu](http://www.sph.sc.edu).

**Qualifications:** Earned doctoral degree in epidemiology, biostatistics, health promotion/health behavior, or closely related discipline, a promising record of original research on health and healthcare system issues, a commitment to quality teaching, and demonstrated ability to work within a multi-disciplinary team are required. Successful candidates will have clinically relevant research experience and partnerships with healthcare systems. Evidence or promise of obtaining competitive external funding is essential.

**Responsibilities:** Collaborate with colleagues in Greenville and Columbia on research activities related to clinically-driven, population health, and health care delivery issues, and initiate and develop a funded research program relevant to rapid-learning health delivery systems. In addition, the successful candidate will teach relevant courses as part of departmental duties, expand relationships with local public health and healthcare organizations for graduate student training; advise students and post-doctoral fellows; and perform service to the University, profession, and community.

**Salary:** Commensurate with experience.

**How to apply:** A letter of application, curriculum vitae, and electronic contact information for three references should be sent by e-mail, with "ASPH-Greenville Faculty Search" in the subject line, to [ghssearch@sc.edu](mailto:ghssearch@sc.edu). Please specify to which position you are applying. Those with questions should contact James Hardin, PhD, Chair of the Epidemiology/Biostatistics Search Committee at [jhardin@sc.edu](mailto:jhardin@sc.edu) or Andrew Kaczynski, PhD, Chair of the Health Promotion, Education, and Behavior Search Committee at [atkaczyn@mailbox.sc.edu](mailto:atkaczyn@mailbox.sc.edu). Review of applications will begin immediately and continue until the positions are filled.

The University of South Carolina is an affirmative action, equal opportunity institution. Minorities and women are encouraged to apply, as our many minority and female students value positive role models. The University of South Carolina offers a robust benefits package described at:
