

# ASPPH CONGRATS

## ON STARTING YOUR PUBLIC HEALTH JOURNEY!

As you dive into your public health program, we wanted to share a few resources and events offered to you through the Association of Schools and Programs of Public Health (ASPPH).

### THIS IS PUBLIC HEALTH (TIPH)

Many of you are already familiar with the TIPH campaign which is now found in nearly 50 countries around the world. The TIPH campaign offers opportunities for you to engage others in identifying public health in the world around them and promoting awareness of public health to others. Follow TIPH on social media to stay up to date on news and events. You can also share your own public health activities using [#ThisIsPublicHealth](#).
