Yes	No
11	0

Explain:

- A The guest on the whole were very informative and interesting.
- B. Even though I disagreed with a few of them in terms of their facts and biases, I still learned a little bit about different ways to view the same issue. I Think a large part of diversity is seeing that there are different view-points, which is what this course and the speakers helped to do.
- C. The speakers were (mostly) well knowledged [sic] about their topics and interesting.
- D. The guest speakers helped in providing real world insight dealing with their respective issues.
- E. Many of the speakers brought things to my attention that I had never really thought about, and they made me think about ways to make the world a better place.
- F. I learned a lot about Islam and the Holocaust that I didn't [know].
- G. The guest speakers were good as a whole & they were very helpful in their subject.
- H. Everyone except Rev. Woodbury added to my understanding.
- I. I gained a knew [sic] perspective on the issues from the speakers.
- J. No comment.
- K. Most were quite interesting.

D. I didn't mind taking this course so much, but perhaps it could focus on issues like the environment in a larger section next semester.
