# THE SOUTHERN STATE OF MIND

Edited by Jan Nordby Gretlund

"Gretlund has collected a deeply thoughtful set of reflections about the contemporary regional spirit. . . . Those interested in Southern intellectuality will find this volume highly rewarding."—*Journal of Southern History*

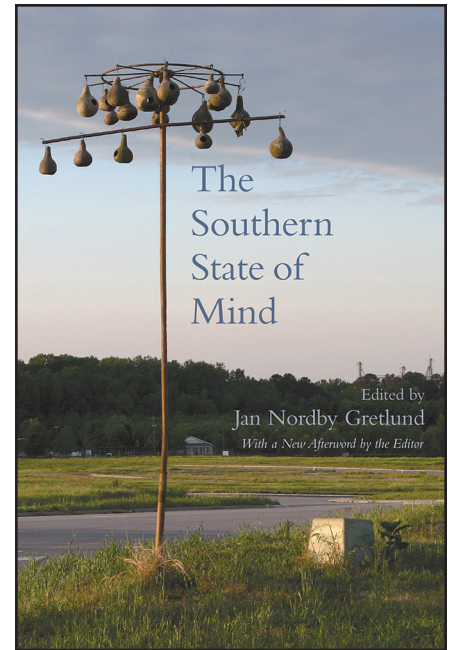

"Gretlund has here assembled an impressive group of Southern political scientists, historians, and literary critics, whose work together reinforces the truism that Southern studies at its best casts a wide interdisciplinary net."—*North Carolina Historical Review*

In a collection of essays as provocative as the region that inspired them, leading historians and literary critics offer a combined effort to define Southern identity at the end of the twentieth century. Removed from the devotional, certifying, and celebratory view of the South that has dominated books of this genre, *The Southern State of Mind* addresses the question of whether inherited Southern values, problems, and contradictions have survived the onslaught of modernization. The overarching dialogue among the contributors illustrates how the ideological self-identification in the South has a powerful potential for shaping national attitudes.
