

This course plan is a recommended sequence for this major. Courses designated as critical (!) may have a deadline for completion and/or affect time to graduation. Please see the Program Notes section for details regarding "critical courses" for this particular Program of Study.

## **Graduation Requirements Summary**

| Minimum Total<br>Hours |    |       | Carolina Core Hours | Minimum<br>Institutional GPA |
|------------------------|----|-------|---------------------|------------------------------|
| 122                    | 52 | 40-46 | 33-39               | 2.000                        |

1. Regardless of individual course grades, students must maintain a minimum 2.000 cumulative GPA.

2. Some colleges require a minimum GPA for major courses. Courses indicated in this column are included in the major GPA for this program of study.

Students who do not place into MATH 141 will be required to successfully complete MATH 112, 115, or 116 before taking MATH 141.
The <u>Carolina Core</u> provides the common core of knowledge, skill and academic experience for all Carolina undergraduate students.

The <u>Carolina cole</u> provides the contribution core of knowledge, skill and academic experience for all Carolina undergraduate students.
Students in the College of Arts and Sciences are required to demonstrate proficiency in one foreign language equivalent to the 122 course through course credit or the corresponding foreign language placement score.

 The College of Arts and Sciences requires one U.S. History and one non-U.S. History course, both of which must be chosen from the approved Carolina Core GHS courses. Whichever is not fulfilled through the Carolina Core GHS requirement must be fulfilled through this college requirement.

7. Engineering Physics Concentration courses (3-4 hours): Choose one from the following:

PHYS 502 Quantum Physics II (3)

PHYS 511 Nuclear Physics (4)

PHYS 542 Advanced Experimental Physics II (4)

## **Program Notes:**

- ENGL 101 and ENGL 102 must be completed in the student's first 60 semester hours of work in order for these courses to be credited toward graduation. Other courses designated as critical are prerequisites for subsequent courses, and a delay in completion of these courses may affect time to graduation.
- All undergraduate students must take a 3-credit course or its equivalent with a passing grade that covers the founding documents. This course may fulfill any requirement in the program of study. Courses that meet this requirement are listed in the academic bulletin.
- The last 30 credit hours toward your degree must be earned in residence at the University of South Carolina-Columbia.

University Requirements: Bachelor's degree-seeking students must meet Carolina Core (general education) requirements. For more information regarding these requirements, please visit the <u>Carolina Core</u> page on the University website.
