The Family Educational Rights and Privacy Act (FERPA) is a Federal law that protects the privacy of student education records. FERPA dictates that University staff members may not share any information, other than directory information, with anyone outside of the University system. This includes, but is not limited to, information about grades, disciplinary history and action, health concerns, and the balance in your accounts. Schools may disclose, without consent, "directory" information such as a student's name, address, telephone number, date and place of birth, honors and awards, and dates of attendance. Exceptions to this Act are allowed in life-threatening situations. University administrators within the University system may share information about students and residents on a need-to-know basis.

By checking the box below, you (the student) are providing consent to release your educational records. In compliance with the Family Education Rights and Privacy Act of 1974, all transcript requests **MUST BE MADE BY THE STUDENT**; no requests can or will be accepted from a third party (including parents). It is the responsibility of the student to assist in their own privacy protection by not allowing access of their educational records to others, including the release of their university personal identification numbers, Student ID or SSN, computer login usernames and passwords, etc.

Please visit the [U.S. Department of Education's website](#) for further information regarding FERPA

How to Authenticate This Official Transcript From the University of South Carolina

This official transcript has been transmitted electronically to the recipient, and is intended solely for use by that recipient. If you are not the intended recipient, please notify us via email at UofSCExperience@sc.edu. It is not permissible to replicate this document or forward it to any person or organization other than the identified recipient. Release of this record or disclosure of its contents to any third party without written consent of the record owner is prohibited.

This official transcript has been digitally signed and therefore contains special characteristics. If this document has been issued by the University of South Carolina, and for optimal results, we recommend that this document is viewed with the latest version of Adobe® Acrobat or [Adobe® Reader](#); it will reveal a digital certificate that has been applied to the transcript. This digital certificate will appear in a pop-up screen or status bar on the document, display a blue ribbon, and declare that the document was certified by Parchment with a valid certificate issued by GlobalSign CA for Adobe®. This document certification can be validated by clicking on the Signature Properties of the document.

The blue ribbon symbol is your assurance that the digital certificate is valid, the document is authentic, and the contents of the transcript have not been altered.

If the transcript does not display a valid certification and signature message, reject this transcript immediately. An invalid digital certificate display means either the digital signature is not authentic, or the document has been altered. The digital signature can also be revoked by the transcript office if there is cause, and digital signatures can expire. A document with an invalid digital signature display should be rejected.

Lastly, one other possible message, Author Unknown, can have two possible meanings: The certificate is a self-signed certificate or has been issued by an unknown or untrusted certificate authority and therefore has not been trusted, or the revocation check could not complete. If you receive this message make sure you are properly connected to the internet. If you have a connection and you still cannot validate the digital certificate on-line, reject this document.
