Cost Transfer Policy

Policy Title: Grants and Funds Management – Cost Transfer Policy (FINA 3.35)

Purpose: The purpose of this policy is to set forth the University of South Carolina’s requirements for cost transfers to, from, or between sponsored projects.

Definition: A Cost Transfer is a reassignment (transfer) of charges between accounts. This includes both direct charges and cost share.

- Transfers between projects with the same budget year and funded under the same Federal award are considered “intra-award reallocations” and are not subject to this policy.
Cost Transfers – May Be Allowable

Grants and Funds Management (GFM) determines whether a cost transfer is allowable. The following three prerequisites are considered:

• The cost transfer must provide a direct benefit to the Sponsored Project being charged.
• The cost transfer must comply with both the University’s policies and sponsor’s terms and conditions.
• The cost transfer must be fully documented.

Other factors, such as timing may affect allowability.
Example Transfers that May Be Allowable

The following is a list of examples that illustrate circumstances in which a cost transfer may be allowable:

- The cost transfer will occur within 90 days of original expense.
- To correct errors due to the untimely receipt of information by the University (e.g. late notice of award).
- To reallocate effort based on actual effort expended.
- To move pre-award costs to the appropriate project in accordance with Uniform Guidance.
- To correctly allocate costs benefiting more than one project.
- To remove unallowable charges.
- To remove out-of-period charges.
Cost Transfers – Not Allowable

Certain cost transfers are not allowable under any circumstances. Such as:

• To correct deficiencies caused by overruns or other funding considerations.
• To avoid restrictions imposed by the law or by terms of the Sponsored Project.
• To “park” expenses which will subsequently be transferred elsewhere, including to competing or non-competing continuations of the same project for which the notice of award or new project has not been received.
• To transfer costs to a sponsored project merely because there are unexpended funds available which would otherwise be returnable to the sponsor.
Timing of a Cost Transfer

A cost transfer should be processed **within 90 days** following the end of the month in which the original charge was initially recorded. The following factors could affect and shorten the 90 day window:

- Financial report due/submission date
- Carryforward request due/submission date
- Final invoice due/submission date

**Note:** Cost transfers which remove expenditures from sponsored projects are not subject to the 90 day time limit, and must be prepared at any time that it is determined that an expenditure charged to a sponsored project is not appropriate or allowable to that project.
Payroll Retro Funding Changes – Current Process

• **Reminder:** The following forms for retro payroll accounting distribution are no longer available:
  – Retro Payroll EPAF form in PS HCM
  – Retro Payroll manual form

• Please be sure to use the current Retro Funding Change form and follow instructions.
  – Be sure to list the original paycheck date
  – Be sure to provide supporting documentation

• Email forms to [RetroJE@mailbox.sc.edu](mailto:RetroJE@mailbox.sc.edu).
  – No manual forms or hard copies will be accepted
Payroll Retro Funding Changes

• The Controller’s Office will create the Retro Journal Entry, post the JE and upload all retros to HCM Distribution.

• Expect **2-3 days** before you can view the change in HCM Distribution. They will be easy to identify when available.

• Please remember to complete retro account changes within **90 days** of the pay date.

• Workers comp and unemployment will post after the 1\textsuperscript{st} and 15\textsuperscript{th} of the month.
Payroll Retro Funding Changes

Form can be found on the homepage of the [Controller’s Office](#) website.

Cost Transfers Greater than 90 Days

Any cost transfer greater than 90 days (including Retro Funding Changes) must have a cost transfer memo attached (if they affect sponsored awards). The Cost transfer memo must answer the following questions:

1. Why was this expense originally charged to the account from which it is now being transferred (in other words, explain the error or circumstance for originally charging the incorrect account)?

2. Why should this expense be transferred to the proposed sponsored research project account (in other words, provide an explanation as to how this expense benefits the project it is being moved to)?

3. Why is this cost transfer being requested more than 90 days after the original transaction?

4. How will you prevent this type of error or situation from happening in the future?
Helpful Tips

• Pay attention to the 90 and 30 day project ending notifications.
• Establish and use risk accounts to avoid parking charges and unnecessary cost transfers.
• Make sure you are reviewing payroll regularly.
• Allocate purchase card expenses appropriately in the beginning.
• Please ensure P-Cards do not default to grant projects.
• Be sure to watch your budgets and make sure to spend within budget categories.
• Charge the grant and cost share as it is incurred and within ratio.
