DoIT Staff Member Presents in China
Linda Mihalik, director of enterprise academic technology initiatives, recently gave a presentation in Taiwan regarding the university’s “Beyond the Classroom Matters” project. Her presentation was addressed to leadership from Beijing International Studies University. The “Beyond the Classroom Matters” project will analyze how student participation in activities outside of the classroom enhances their educational experience. The initiative is a collaborative effort between the Division of Student Affairs and Academic Support, the Division of Information Technology, and several other departments across campus.

RCI Moves to New Location
The Research Cyberinfrastructure (RCI) group has a new home. The group has relocated to Division of Information Technology space at the IT-ology building, located at 1301 Gervais Street, Suite 750. RCI works in partnership with the Office of Research and engages faculty and researchers across multiple colleges and campuses to help define and execute the research mission of the University of South Carolina. RCI works with researchers to improve their project performance and secure computing resources. For additional information, contact the RCI group at rci@sc.edu, (803) 777-6566, or visit www.sc.edu/rci.

Help Us Showcase IT Accomplishments
A new feature has been added to the Division of Information Technology web page (http://www.sc.edu/it). “Division of IT Spotlights” will highlight awards and recognitions received by IT personnel at the university and showcase innovative ways that students, faculty, and staff use technology across the institution. In order to be featured in the Spotlight, 1) the individual must be a student, faculty, staff, or alumni of the University of South Carolina, 2) the highlighted award or activity is distinctive, and 3) the activity benefits the university. To nominate someone to be featured in a future Spotlight, please email oit@sc.edu.

This communication is distributed by the Division of Information Technology. Please contact Michelle Foster at mfoster@mailbox.sc.edu with any comments or suggestions.
