Radiation Safety

Weekly Wipe Test Log

Investigator:	Location:

Date	Area*	Measured DPM	Comments

*Area designations (A, B, C, or 1, 2, 3, etc.) should be specified on a sketch of the lab.

A BACKGROUND MEASUREMENT should be recorded for each set of wipe tests.

Any area wipe tested that has a measurement of GREATER THAN 3 TIMES THE BACKGROUND MEASUREMENT should be decontaminated, rewiped, and the wipe test result recorded in the comments column.
