Job Data is made up of 5 tabs that contain different pieces of the job. All tabs have the same ‘header’ information (above the light grey line under the Payroll Status and Job Indicator fields). The header data indicates the last time the job was permanently changed, meaning it is the current job as of the Effective date listed.

**Work Location Tab:**
This tab provides the position number, business unit (campus) department, location and applicable end-dates and auto-termination. Always note the Date Created field as that tells you the date the current action was approved and wrote to job data.

8. Click the **Job Information** tab.
Job Information Tab:

- **Job Code** – State classification or unclassified code. Student job code or affiliate job code.
  - RIGHT CLICK the red triangle next to the job code description to expand the employee’s market title history. Utilize the scroll bar at the bottom of the pop-up window to see all information. Click the X in the top right corner to return to the Job Information tab.

- **Supervisor Information** – Supervisor ID and Reports To should fields never both be completed. Temporary positions should have the supervisor listed by Supervisor ID and positioned employees have the supervisor listed by Reports To. **No name or USC ID will appear if the supervisory position is vacant.**
  - RIGHT CLICK the red triangle next to the supervisor’s name or blank field to expand the incumbent information. Click the X in the top right corner to return to the Job Information tab.
Job Information Tab (continued):

- **Regular/Temporary** – Indicates the type of position (Regular = FTE)
- **EMPL Class** – Specifies the type of employee within the Regular/Temporary indicator.
- **Full/Part** – Advises if the position is full or part time.
- **Standard hours** – for all full-time FTE, RGP, TL employees this field will show 40 hours per week even if hours worked are 37.5. Reference queries to find this data.
