#### **Compliance**

The Off-Site Reaffirmation Committee found support for the institution’s case for compliance.

The Off-Site Reaffirmation Committee reviewed documentation that the institution provides instruction for all course work required for each degree program at each level at which the institution awards degrees. The institution provided evidence of the availability of such instruction through degree program examples at the associate, bachelor’s, graduate certificate, master’s, specialist, and doctoral levels. Professional program exemplars included the Juris Doctor, Doctor of Medicine, and Doctor of Pharmacy. The institution does not arrange for instruction to be provided by other accredited institutions or entities through contracts or consortia, nor does the institution use alternative approaches to meeting this requirement. For all undergraduate, graduate, and professional degree programs degree and course requirements and options were documented in the 2019-2020 Undergraduate Studies Bulletin and the 2019-2020 Graduate Studies Bulletin. The catalogs contain complete degree plans that list courses available to fulfill all degree requirements.
