A **Punch Timesheet** is used to create shifts that define specific work times. Punch shifts are defined by an In punch and the first subsequent instance of an Out punch. There can be other punches, such as lunch, between the In and Out punches.

Due to regulatory guidelines employees that are eligible for call back, on call, and/or shift differential will utilize Time and Labor punch timesheets to track time worked.

You can go back and enter timesheets 60 days prior to the current day on behalf of an employee.

**Step 9:** Be sure to select the correct timesheet for the work week. Use the **Arrows** to navigate to the appropriate timesheet.
As the manager, you can enter time on behalf of your direct reports.

To add hours worked for multiple work orders, begin by adding the in and out times for the first line.

**Step 10/Work Order Line #1:** For the first work order, the employee worked from 8am to 10am. To enter this on the punch timesheet, enter 8:00am as the IN time and 10:00am in the OUT Time Entry field.

Now select the appropriate Time Reporting Code (TRC).

You can only have one TRC per line.

**Step 11:** Click the Time Reporting Code drop-down arrow.

**Step 12:** Select REGHR – Regular Hours.
Step 13: Scroll over to the right, click in the Work Order field, and enter the order number that corresponds with the hours worked for the first line.

Step 14: Click the + (plus) button to add an additional line for the second work order the employee worked that same day.
Step 15/Work Order Line #2: For the second work order, the employee started work at 10:00:01am and ended at their scheduled lunch time of 12:00pm. To enter this on the punch timesheet, enter **10:00:01am** in the **IN Time Entry** field and enter **12:00pm** in the **OUT Time Entry** field.

Now select the appropriate **Time Reporting Code (TRC)**.

You can only have one TRC per line.

Step 16: Click the **Time Reporting Code** drop-down arrow.

Step 17: Select **REGHR – Regular Hours**.
Step 18: Scroll over to the right, click in the **Work Order** field and enter the order number that corresponds with the hours worked for the first line.

**Step 19:** Click the + (plus) button to add an additional line for the second work order the employee worked that same day.
Step 20/Work Order Line #3: For the third work order, the employee came back from lunch 1:00pm and ended their workday at 5:00pm. To enter this on the punch timesheet, enter **1:00pm** in the **IN Time Entry** field and enter **5:00pm** in the **OUT Time Entry** field.

Now select the appropriate **Time Reporting Code** (TRC).

You can only have one TRC per line.

**Step 21:** Click the **Time Reporting Code** drop-down arrow.

**Step 22:** Select **REGHR** – **Regular Hours**.
Step 23: Scroll over to the right, click in the **Work Order** field and enter the order number that corresponds with the hours worked for the second line.

Use steps 15 through 19, if you need to add additional IN and OUT times because the employee worked with additional work orders that day.

**Step 38:** Notice the time for each day is automatically approved at submission. When time is entered by a manager on behalf of an employee, additional approval is not required.
Step 39: When submitted, the Approved icon appears for the days’ time is entered indicating the timesheet is approved. Click the View Legend link to view the legends used and a short description of each one.
