Help

Search, edit, add, and inactivate programs.

Use an asterisk (*) in the search box as a wild card. For example, MATH* will find everything that starts with “MATH”, *MATH everything that ends with “MATH”, and *MATH* everything that contains “MATH”. The system searches the Program Code, Title, Workflow step and CIM Status.

Quick Searches provides a list of predefined search categories to use.

History - OR - ▾

Number of Program	Program Name	Workflow	Status
-------------------	--------------	----------	--------

3. If the new program is similar to an existing program, you can choose “Propose New from Existing Program,” select the similar program, click on “Copy Program,” and then update any information needed for the new program. If not, then complete the information requested in the blank form.

Number Credit
Hours
Enter total number of credit hours for entire program.

- a. Complete the program curriculum section. Undergraduate programs will have sections for degree requirements summary, Carolina Core, college requirements, program and support course requirements, and major requirements.

To enter a degree requirement summary, click on the table tool, select pre-defined table, then ok.

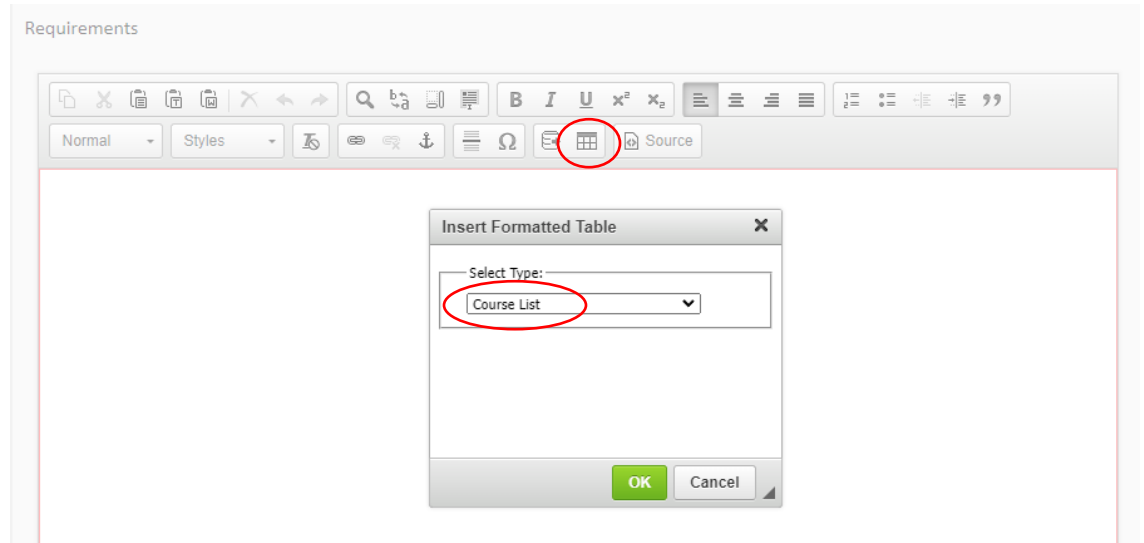

Next, select "Program Summary" and ok.

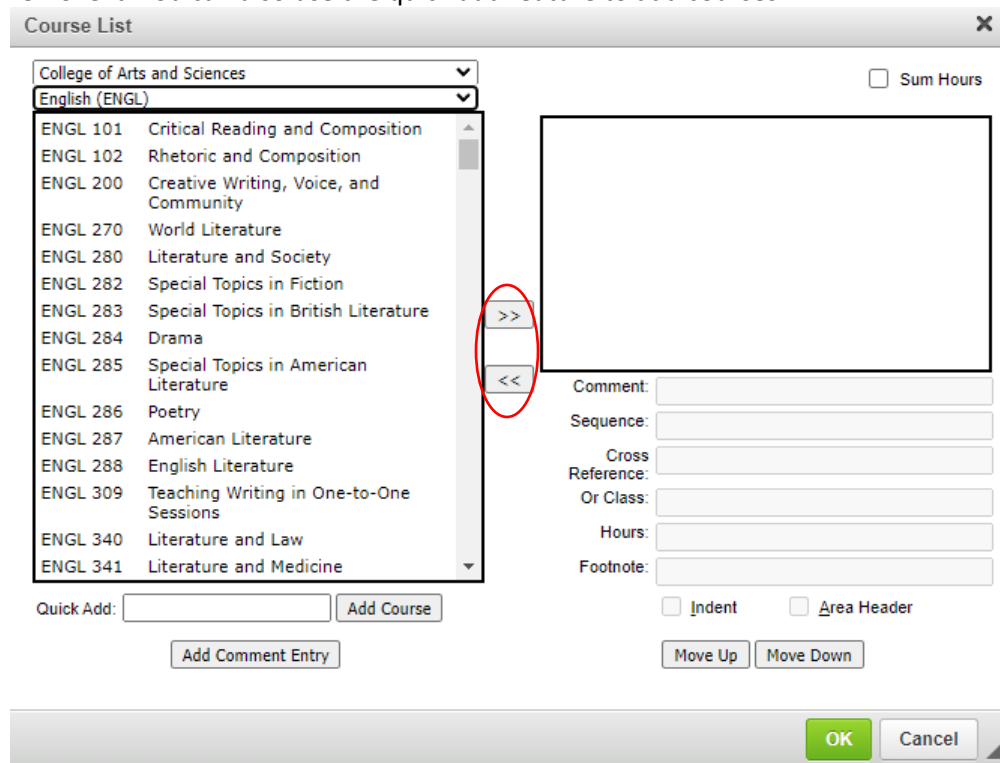

Enter the name of the requirement (e.g., Carolina Core, Major, etc.) and the total number of credit hours. Add new rows as needed and use the "Move Up" and "Move Down" commands to list the requirements in the appropriate order. Click "OK" when finished. If you need to edit the program summary list, double click in the blue box outlining the list to return to the table tool.

- b. When entering curriculum, you can create course lists using the table and course list tools

To list courses, select the college or school, then subject. Use the right arrows to add courses to be displayed in the list. If you need to remove a course, use the left arrows to remove it. You can also use the quick add feature to add courses.

You may also add a comment entry "Select three of the following," identify cross-listed courses or add footnotes to this list.

If adding a comment entry such as stating that students can select three of the following courses, click on “Add Comment Entry” and have it appear before the courses it refers to. You can use the “Move Up” and “Move Down” options to move courses into the correct positions. You will also want to indent the courses included in the selection list.

The screenshot shows the 'Course List' window with the following elements:
