Join us, at our 3rd Annual Healthy Eating in Context Symposium, “Bridging Gaps, Linking Communities”
March 29, 2013 - Register HERE

The Center for Research in Nutrition and Health Disparities teams up with Environment and Sustainability Program to host 3rd Annual Symposium

USC faculty, staff, students, and community members are invited to the 3rd Annual Symposium, “Healthy Eating in Context: Bridging Gaps, Linking Communities”. This year, The Center for Research in Nutrition and Health Disparities has teamed up with the Environment and Sustainability Program to host the symposium. It will be held on Friday, March 29, 2013 at the Columbia Metropolitan Convention Center.

The morning will begin with keynote speaker, Dr. Mariana Chilton, Associate Professor at the Drexel University School of Public Health and Director of the Center for Hunger-Free Communities. The keynote address will follow with oral and poster presentations. The event is expected to start around 8:30am and end by 4:00pm. Details of exact times will be released closer to the time of the event. Lunch and refreshments will be provided.

The goal of this symposium is to connect the diverse communities of South Carolinians who are interested in nutrition research to improve the health of our citizens, local economies, and treasured environmental resources. These interest groups include the multiple disciplines represented by academic scholars at our state’s colleges and universities, researchers from for- and non-profit organizations, and concerned community members.

The symposium will focus on eliciting the cross-fertilization of ideas and creating meaningful linkages between these diverse interest groups in order to address nutrition needs within our state.

Please visit http://nutritioncenter.sph.sc.edu/symposium.shtml for more information, to upload abstracts, and to register. Abstracts for this event are open to USC faculty members, staff, students, and community members and are due on March 4, 2013. Community members are also invited to display a community exhibit.

To receive symposium materials at registration, please register by March 22, 2013. Late registration and walk-ins will be accepted as space allows, and symposium materials will be distributed as available. Contact Amy Teixeira (teixeira@mailbox.sc.edu) for more details.
