ABOUT THE EVENT

In celebration of Women's History Month, USC's School of
Visual Art and Design joins forces with Art+Feminism, a global
movement that builds communities and closes information
gaps related to gender, feminism, and the arts.

Speakers will highlight efforts to increase women artists'
visibility on the Internet and in the digital humanities. The
second half of the event will feature a Wikipedia editing tutorial
for beginners and active practice with research and writing.

Help us bring attention to traditionally underrepresented
artists, especially those who may have been overlooked due
to race, ethnicity, gender, age, religion, language, abilities/
disabilities, sexual orientation, gender identity, socioeconomic
status, or geographic region.
