**Project Description**

InfraGard needed these functionalities added to their website:
- Membership Database
- Registration process
- Direct link to PayPal for payment of membership
- Update Sectors email addresses

**Project Mission Statement**

The mission for this project is to assist InfraGard in the continuation of developing their website for public and member use.

**Technologies Used**

- 1 and 1
- PayPal
- MailChimp
- WordPress

**Project Budget**

- Anticipated (Time) Budget: 180
- Actual Project (Time) Budget: 175

**Specific Client Needs**

The focus of the project was to provide:
- Centralizing the accounts that the organization utilizes.
- Developed a mailing list for the organization.
- Hosted the domain and emails through a centralized account.
- Improved registration process and information provided to InfraGard.
- Optimized the website functionality and improved the overall layout of the InfraGard website.

**Project Success Factors**

- Calendar is operational
- Sponsorship page is updated
- Emails and contacts are correct on website
- Membership database is created
- Utilized Mailchimp to create distribution list
- PayPal is connected for members to pay dues online

**Product Development & Deliverables**

**First Deliverables**
- Created a visible calendar page
- Updated Sponsorship PDF
- Corrected address for Contact page

**Second Deliverables**
- Corrected membership database fields
- Created a database for collecting emails
- Homepage

**Finalized Deliverables**
- Linked PayPal to Membership and Sponsorship pages
- Continued membership database
- Created distribution list
- Interactive map

**Lessons Learned**

Ben Hepner - I learned how implementing changes a client wants requires a lot of discussion and approval processes.

William McDowell - I learned the importance of communicating with each member and clients to effectively achieve the overall scope of the project.

Tamara Nurse - I learned the importance of every Project Management role and how these roles ensure the project is successful.

**Key Stakeholders**

- James Woodlock, Vice President of InfraGard
- Thomas Scott, Executive Vice President of InfraGard, Project Sponsor
- Dr. Karen Patten, Faculty Advisor

**Project Results & Future Recommendations**

The project is completely finish and the scope was met with all requirements.
