Section 1
General Information

Welcome

Congratulations on completing the didactic portion of your physician assistant training, and moving forward to the clinical phase of your education. You will train with preceptors at sites throughout the state to become competent clinicians capable of providing comprehensive care to patients from diverse populations and all walks of life.

Please take a moment to consider how very privileged you are as a PA student to enter into the practices of your preceptors and the lives of their patients. Your preceptors and patients are counting on you and expect that you will provide excellent care in a professional and compassionate manner.

Supervised Clinical Practical Experiences (SCPE) are your “real world” chance to practice what you have learned. Hard work, motivation, commitment, and enthusiasm will be rewarded with newfound knowledge and skills. You will gain personal satisfaction and self-confidence in knowing that you are improving the health outcomes and quality of life for these patients.

Be punctual, work hard, ask questions, and always maintain a positive attitude. Show genuine interest and read every day about the cases you see. Take responsibility for your learning. If you ask for help, you will get it. Remember that our faculty is here for you even while you are away from campus.

This handbook has information you will need for a smooth transition into the clinical year. It is intended to supplement other student material that we have provided for you. Should you have any questions about material covered in this publication, please contact the Director of Clinical Education or your faculty advisor.

Best wishes for a very productive year of patient care and learning!

Introduction
While all students who are enrolled at USC are covered by the policies and procedures as dictated by the institution, students of the physician assistant program face unique situations that may or may not be addressed in the general student handbook. Therefore, this handbook is provided as a resource for the PA student in the clinical year. Although every attempt has been made to make this handbook comprehensive, it cannot possibly address every potential situation. Should you encounter a situation not covered in the handbooks provided for you and are uncertain of how best to proceed, contact the PA program office for assistance. We trust that you will exercise good judgment and discretion in addressing the issue until the program office can be contacted.

USC ensures that all policies and procedures contained within this handbook have been reviewed by institutional administrators and the university legal counsel to assure that contents are consistent with federal and state statutes, rules and regulations prior to publication. This handbook is reviewed annually for its relevancy and application as part of the self-study process.

**Mission Statement**

The USC School of Medicine-Columbia Masters in Science in Physician Assistant Studies Program strives to produce highly competent, compassionate physician assistants who are committed to lifelong learning and advancing the PA profession. The program is dedicated to producing physician assistants who deliver high-quality, patient-centered care, excel as members of an interprofessional health care team, while making significant contributions to the health care needs of South Carolina and the nation.

**Accreditation Status**

The ARC-PA has granted **Accreditation-Provisional** status to the University of South Carolina Columbia School of Medicine Physician Assistant Program sponsored by the University of South Carolina.

Accreditation-Provisional is an accreditation status granted when the plans and resource allocation, if fully implemented as planned, of a proposed program that has not yet enrolled students appear to demonstrate the program’s ability to meet the ARC-PA Standards or when a program holding Accreditation-Provisional status appears to demonstrate continued progress in complying with the Standards as it prepares for the graduation of the first class (cohort) of students.

Accreditation-Provisional does not ensure any subsequent accreditation status. It is limited to no more than five years from matriculation of the first class.

For more information regarding the implications of accreditation please visit [www.arc-pa.org](http://www.arc-pa.org).

Goals of the Clinical Year

The clinical year takes students from a passive to an active role in patient care to prepare them for the assumption of their professional role as physician assistants. To this end, the overall goals of the clinical year include:

- Demonstrating a sound understanding of the biomedical and clinical sciences covered during the didactic year and to be able to effectively apply that knowledge to the treatment of patients.
- Further developing medical knowledge by participating directly in the care of patients under the tutelage of a qualified preceptor.
- Demonstrating interpersonal and communication skills that result in effective information exchange with patients, their families, physicians and other healthcare professionals.
- Developing and refining a systematic approach to both the complete and problem focused history and physical exam
- Learning an approach to the evaluation and management of acute and chronic illnesses and conducting wellness visits for patients of any age or gender.
- Demonstrating care that is effective, patient-centered, timely, efficient, and equitable for the treatment of health problems and the promotion of wellness.
- Exhibiting a high degree of responsibility, ethical practice, sensitivity to a diverse patient population and adherence to legal and regulatory requirements.
- Engaging in critical analysis of their own practice experience, medical literature, and other information resources for the purpose of self-improvement.
- Demonstrating an awareness of and responsiveness to the larger system of health care to provide patient care that is of optimal value.
- Preparing for the Physician Assistant National Certifying Exam (PANCE) and future employment.

The Program’s Responsibility (A3.03)

- Provide the preceptor and student with the SCPE’s educational objectives.
- Assume responsibility for selection and assignment of students to the individual preceptor.
- Coordinate the educational and clinical activities involving the preceptor, clinical facility, student, and PA program faculty.
- Make training guides, evaluation measures, and other materials available to the preceptor.
- Provide information at appropriate intervals to the student and preceptor regarding evaluation outcomes.
- Inform students on SCPEs they are subject to the policies, protocols, rules, and regulations of the preceptor and clinical facility.
• Inform students that they are responsible for their own meals, lodging, transportation, uniforms, laundry, and health during their clinical SCPEs.
• USC requires that each PA student carries professional liability coverage, is up to date on all program required immunizations, has completed a criminal background check, has undergone a physical exam, has passed a drug screen, has completed HIPAA training, and is currently certified in BLS and ACLS.
• Provide students training sessions regarding infection control, use of universal precautions, TB, and blood borne pathogens.

The Student’s Responsibility

• Act as an ambassador for the USC PA program and conduct yourself in a professional, respectful manner at all times.
• Report patient data fully and promptly to the preceptor.
• Proceed with management of the patient only after consulting with the preceptor.
• Act as a responsible health care provider by behaving professionally, legally, and ethically at all times.
• Arrange the schedule in advance and promptly notify the preceptor and the PA program office of any schedule changes.
• Wear an identification badge that identifies them as a USC PA student at all times while at a clinical site.
• Prepare yourself for the SCPE and the subsequent end of rotation exams.
• Meet, to the best of your ability, the learning outcomes of each SCPE.

The Preceptor’s Responsibility

• Provide adequate clinical space for the student to care for patients.
• Ensure that students are not used as a substitute for clinical or administrative staff.
• Review and sign all the student’s patient records.
• Familiarize each student with the protocols, rules, and regulations of the facility.
• Maintain administrative and professional supervision of the student while on duty.
• Provide direct supervision by qualified staff while the student is performing procedures.
• Provide students with dressing and eating facilities similar to those of employees.
• Allow students to participate in and attend education offerings by and at the facility.
• Notify the Director of Clinical Education in a timely manner of any unsatisfactory student conduct or performance.
• Provide evaluations for each student on PA program forms. Allow and provide students with opportunities to meet objectives.
• Provide PA program faculty access to the student, preceptor, and facility.
• In the event of an accident or illness, the student will be allowed to seek medical attention at the facility or an emergency room where the provider on duty will determine the course of treatment. Cost of the injury or illness is the sole responsibility of the student.
• Maintain full responsibility for the patient’s medical care and treatment.
• Orient student to the safety and security measures of the clinical site.

Program Defined Professional Behaviors

• Demonstrate respectful, mature, and empathetic behavior with faculty, staff, and student colleagues.
• Demonstrate tolerance for uncertainty and ability to give and receive constructive feedback from faculty, staff, and student colleagues.
• Exhibit honesty and integrity by abiding by the Honor Code of the University of South Carolina as well as the Carolinian Creed, in all exams, quizzes, and graded assignments.
• Perform responsibly and with accountability by arriving promptly to classes and working effectively as a team member when assigned.

Student Contact Information

The program needs to know how to reach you at all times. Please report any changes to your name, address, telephone number and/or emergency contact numbers to the program. You may update your contact information with the PA program office. Email is the preferred method of communication with students on SCPEs. You are required to check and respond to emails on a daily basis. Be certain your preceptor knows how to reach you in case of an emergency.

Social Media Policy

Social media guidelines are stated below:

1. Social networking is a great way to meet new people, stay in touch with old friends and connect with the University of South Carolina. Visit the university’s social media directory to keep up with the latest news on programs and events and to share your thoughts with the Carolina community.

2. Remember that university policies including the student code of conduct, as well as state and federal laws, apply online. You are responsible for what you say and do through social media just as you are in any other circumstances.

3. Uphold the Carolinian Creed. Respect others and their opinions, engage in civil discourse and discourage any behavior that threatens personal freedom or dignity.
4. Remember that regardless of your privacy settings, information you share online can become public. Avoid sharing your address, full birthdate, telephone number, class schedule and passwords. Don’t post obscene or tasteless material; it could come back to haunt you.

5. Think about your future. An increasing number of admissions officials and employers consider candidates’ social media activities in making their selections. Online behavior has been used to terminate employees and submitted into evidence in legal cases. Be responsible and be careful.

6. If you are the victim of harassing or bullying online activities, contact the student conduct office at 803-777-4333.

7. No student shall be “friends” with a faculty and/or staff member on a social media site while enrolled in the program.

Clinic Environment:

- IM, texting, email, etc., may only be conducted when away from the patient care environment and when not engaged with your preceptor or staff.
- Nonacademic internet usage is not appropriate in the clinic or hospital settings.
- Headsets and earbuds are never to be worn in the clinical setting.
- **Any posting on a social media site that discusses patient conditions or shows pictures of patients is a HIPAA violation and will result in immediate dismissal from the program.**
- Students are forbidden from “friending” a faculty/staff member on social media while enrolled in the program.
- Violations of the policy will result in disciplinary action.

Dress Code

Lab Coat/Name Tag:

While at clinical sites, you must wear a short white lab coat with the USC School of patch on the pocket and a nametag attached at pocket or lapel level identifying you as a physician assistant student from the USC PA Program. If the nametag breaks or is lost, please call the program office to order a new one. There is a cost for replacement nametags. Your white coat is to be clean and free from stains at all times: I.e. if there is a spill/stain you should wash your white coat that night so it is clean the next day.

Attire/Uniform/Scrubs:
Always dress in a professional manner. While on SCPEs you represent the USC PA program and the PA profession. Your attire and behavior will convey the image of physician assistants to others. Your dress code will be the same as initiated in the didactic year (refer to didactic student handbook for details). You may see others wearing “less than professional” attire, however, that doesn’t justify you doing the same. Dresses and skirts are not to be worn during clinical rotations. Jeans are not appropriate attire. Be mindful of blouse necklines, as you will be bending and crouching. Ties may be appropriate in some situations, refer to your preceptor. Scrubs may be worn when your preceptor’s wear them: i.e. in the OR or ER.

**Shoes:**

Please use good judgment in the type of shoes you wear. Comfort is important, however, sneakers should be reserved for the OR or emergency department. Sandals, heels and open-toed shoes are prohibited.

**Hair/Jewelry/Fingernails:**

Long hair and bangs that touch the eye will be restrained. Haircuts should be tidy and appropriate. Facial hair is to be kept neat and trimmed. Perfumes or colognes are prohibited, as they may cause undesired reactions in your patients. Jewelry should be kept to a minimum. Earrings allowed: studs that are no larger in diameter than a pencil eraser. Drop, dangle or hoop earrings are not allowed. Body piercings should be conservative and not distract from professional appearance. Artificial/Acrylic nails are not permitted in medical institutions. Nails should be trimmed to within ¼” of tip of finger. Nail polish is to be a natural color (i.e. pink, peach, nude) or clear.

**Work Policy (A3.06)**

Students enrolled in the clinical phase of the program are strongly discouraged from maintaining employment due to the intense and rigorous nature of the program. Students are not required to work for the program. Students are not to receive or accept compensation for any work performed within the preceptor’s clinical site or practice. Students must not substitute for clinical or administrative staff at a clinical training site.

**Course Registration**

The Director of Clinical Education will provide course information to you for your use for registration during each semester of the clinical year. The Registrar will be notified of any changes to your SCPE schedule.

**Housing/Travel/Meals**
USC does not provide housing for students during SCPEs. SCPEs are conducted at sites throughout the state. The student is expected to incur the expense of travel to and from the SCPE site, meals and/or housing.

**Health and Malpractice Insurance**

All students enrolled in the Physician Assistant Program are required to have health insurance. You will be enrolled in and charged for the campus student health plan automatically unless you are able to document that you have alternative coverage through your parents, spouse, or individual plan. If you have alternative coverage and wish to waive the campus health care plan, you must present a copy of your health insurance card in person during your orientation. You must maintain your health insurance throughout the clinical year. You are not an employee of USC and as such you are not entitled to worker’s compensation coverage. Injuries and accidents may occur during the course of your clinical training. If medical attention is required at any point during the clinical year, costs incurred are your responsibility, and not that of the PA Program or the University.

USC provides student malpractice insurance with $300,000/$600,000 coverage for the academic and clinical year. Each clinical site is offered a copy of the policy as evidence of the student’s coverage.

All students are required to be in compliance with USC’s immunization policy.
Medical Care Available at USC

IN THE EVENT OF AN EMERGENCY CALL 911

Students that require after-hours health care may be seen at any local urgent care clinic or hospital emergency room.

Three area hospitals are located within a three-mile radius of the Dorn VA School of Medicine campus:

Emergency Rooms:

**Palmetto Health Baptist Hospital**
1301 Taylor St.
803-296-5010

**Providence Hospital**
2435 Forest Dr.
803-256-5300

**Palmetto Health Richland Hospital**
3301 Harden St.
803-434-7000

*The student health fee does not cover services received at any outside facility.

Multiple services are offered through the USC Student Health Center, a complete listing is available at their website.
https://www.sa.sc.edu/shs/
803-777-3175

USC SOM Employee/Student Health
Family Practice Center
3209 Colonial Drive
Columbia, SC
Kayle Spires
Kayle.spires@uscmed.sc.edu
803-434-2479

On-Campus Urgent Medical Calls

Call 911

24/7 Sexual Assault/Violence
If you experience a sexual assault or violent situation and need the assistance of a Student Health Services sexual assault advocate after hours, call the USC Police Department at 803-777-4215, and they will contact the advocate. If it is an emergency, call 911 or go to the nearest emergency room.

**Psychological Counseling**

**Counseling Services**  
Byrnes Building, seventh floor  
901 Sumter St. Columbia, SC 29208  
Appointments: 803-777-5223

**Routine care and other services**

Routine medical appointments are to be taken care of on your own time. You will not be given excused time off for routine medical appointments.  
[https://www.sa.sc.edu/shs/hourslocations/](https://www.sa.sc.edu/shs/hourslocations/) will provide students with hours and locations for the Thomson Student Health Center, counseling services, psychiatric services, campus wellness, sexual assault and violence intervention & prevention, and student health care services department locations.

You were required to complete a health assessment, background check, drug screen, and TB skin test (PPD test) prior to beginning the PA program. This information must be included with the material sent to every clinical site and preceptor. The TB skin test, background check and drug screen must be repeated, at the students expense, and results submitted to the clinical office prior to starting clinical SCPEs.
Body Fluid/Needle Stick Exposure and Accident Policy

Procedures for student exposures occurring in facilities within 50 miles of Columbia, SC:

Should you sustain a needle stick or exposure to a potentially infectious and/or hazardous substance during your SCPE or suffer any other injury during normal working hours Monday-Friday, 8:00 am – 4:00 pm (excluding holidays):

- Immediately report the incident to the appropriate person at your SCPE site. They will follow the policies in effect at their site to provide proper immediate care and necessary follow-up care. Contact the School of Medicine Employee Health Nurse by phone at (803) 434-2479 or page at (803) 303-0035. If you are unable to reach the employee health nurse by phone or page within 10 minutes, you must page Dr. Olabisi Badmus at (803) 352-0576. These health care providers are affiliated with the Palmetto Health-USC Family Medicine Center. You may be required to report to the USC Family Medicine Center’s Employee Health Office for further evaluation. The Family Medicine Center is located on the first floor at 3209 Colonial Drive, Columbia, SC 29203. The Employee Health Office team will determine the appropriate clinical protocols to follow based on the circumstances of the reported incident.

- Incidents occurring outside normal working hours and on weekends or holidays should be reported to the Emergency Department at Palmetto Health Richland Hospital. Send an incident report to the USC Family Medicine Center’s Employment Health Office at employeehealth.uscmed.sc.edu during the normal work week. This report must include the date of the incident, person involved and their supervisor, nature and consequences of the incident, root cause, and a description of the material/hazard involved.

- Incident is to be reported to the Director of Clinical Education after it has been reported to the School of Medicine Employee Health Office.

Procedures for student exposures occurring in facilities outside Columbia, SC:
(Nota: This guidance applies to students participating in academic training at an area hospital/facility)

- All health care facilities are required to have institutional procedures for post-exposure evaluation and follow-up. Any USC faculty, staff or student that has an exposure to a potentially infectious material as a result of performing their employment or academic duties should follow the procedures established by the local institution. In the event that a USC faculty, staff or student has an exposure in a facility that does not have a documented protocol, the individual should report to the local Emergency Room. Personnel working outside the Columbia area must be familiar with the local facility exposure protocol.

- You should also notify the PA Program of the incident and if you need any additional assistance in securing appropriate medical treatment.
Harassment Policies and Procedures

Medical offices, operating rooms, emergency rooms and hospitals are all institutions where the serious business of taking care of patients occur. Employees often use humor as a means of stress relief; however, their humor should never make another person feel as though they have been harassed or create a hostile work environment. If an incident occurs where you feel in imminent danger, clearly communicate your distress by any means possible, remove yourself from the situation, and call 911. If you feel that an incident has occurred that is not one of imminent danger, you should report the incident to the Director of Clinical Education and the USC Office of Equal Opportunity Programs (EOP)

Sexual Harassment

The University of South Carolina recognizes that harassment on the basis of sex is a violation of the law. USC is committed to an environment free from explicit and/or implicit coercive sexual behavior used to affect the well-being of members of this academic community. Sexual harassment is unacceptable and grounds for disciplinary action. Students who wish to file a complaint alleging sexual harassment should do so by contacting the Office of Equal Opportunity Programs. Persons observing sexual harassment should report the matter to the Office of Equal Opportunity Programs. Further details regarding sexual harassment and how reports are initiated may be found at: https://www.sa.sc.edu/shs/savip/

Student Mistreatment Policy (A3.11)

The USC PA Program strives to maintain a professional learning environment. However, there are instances when a student may feel as though they have been mistreated and these should be investigated per the procedure in this policy. Examples of mistreatment include: 1) faculty speaks insultingly or unjustifiably harshly, 2) belittles or humiliates, 3) threatens physical harm, 4) physically assaults (hits, slaps, kicks), 5) demands personal services (shopping, babysitting), threatens to lower a student’s grade for reasons other than course/clinical or professional performance.

It is the policy of the USC PA Program for faculty to abstain from using PA students for services of any kind including, but not limited to, babysitting, housesitting, lawn care or any other service

Policy Procedure:

- As professionals, PA students are expected to be able to handle conflict with other professionals in an appropriate manner. Therefore, conflicts between students or between the student and faulty should be discussed between the individuals involved.
• If the conflict cannot be resolved between the parties involved, or if the conflict is of a nature that the student feels uncomfortable confronting the involved individual, then the student should report to their advisor (if the advisor is the involved individual, then the student should report to the Program Director).
• The advisor/Program Director will take the complaint to the appropriate committee for resolution.
• If the student is not satisfied with the resolution, then they should appeal to the University of South Carolina ombudsman:
  Dr. James R. Augustine
  803-463-1384

Conflict Resolution

In the event of conflict (academic or non-academic), the following measures should be taken:

• Incident should be reported to the student’s advisor or the Director of Clinical Education.
• If the situation involves the student’s advisor, report should be made to the Program Director.

Student Security

Security while on SCPEs is the responsibility of the participating facility. The preceptor should orient the student to safety and security measures specific to the clinical site. The student is to exercise good judgment while on SCPEs in terms of his or her own personal security. Most institutions have security personnel available to walk the student to their car after hours. If a security incident occurs while on SCPE, the student should immediately contact the institutions security personnel or local authorities. The Director of Clinical Education should be made aware of any incidents where a student’s security has been compromised.

Faculty Advisor

All students were assigned a faculty advisor during the academic year. This same faculty member will continue to be your advisor during the clinical year. You are required to meet with your advisor at least once a semester during the clinical year. During this visit, your faculty advisor will critique examples of your medical documentation and discuss your adaptation to clinical practice. You are required to provide your advisor with three examples of your medical documentation prior to each of these advisory meetings. Your advisor will select one document per semester to be included in your summative evaluation. This individual is committed to seeing you succeed in the program and as a future provider. You may address any personal concerns about your clinical education experience – i.e. personality issues, concerns about not meeting learning objectives, etc. with either them or the Director of Clinical Education. There will likely be communication between the faculty
regarding these issues. Specific questions regarding SCPE assignments and placement are to be addressed with the Director of Clinical Education.
Section 2
SCPEs

Required SCPEs

- Family Medicine x 2
- Behavioral Medicine
- Internal Medicine
- Orthopedics
- General Surgery
- Women’s Health
- Pediatrics
- Emergency Medicine
- Elective x 2

SCPE Syllabi
Each SCPE has a separate syllabus written to address the specific topics and objectives that are to be introduced and/or mastered during the clinical experience. Students will have access to the syllabus prior to the start of the SCPE.

Medical Literature
Students may utilize the USC Library website to access a wealth of online resources. http://uscm.med.sc.edu/

Students have access to a large collection of online medical texts and journals, UpToDate, PubMed and MD Consult. Should you have any questions about available resources or need assistance researching a topic, contact the medical librarian.

SCPE Assignment Policy

PA Students are not required to provide or solicit clinical sites for preceptors. SCPE assignments are entirely the domain of the Director of Clinical Education. All aspects of the student’s performance in the program will be considered during deliberation concerning SCPE placement. Students will have an opportunity to submit requests for particular clinical sites and electives during the last semester of their didactic education. While attempts will be made to honor reasonable requests; the educational needs of the student and availability of preceptors will guide the ultimate assignments.

Every student is provided the SCPE schedule and preceptor contact information well in advance of each individual SCPE. It is imperative that the student contact the site at least one week prior to the start of a SCPE to confirm the schedule. Preceptors appreciate this and it gives them a chance to let you know where and at what time
you should report on your first day. The student will also need to contact human resources at any facility they are placed at to set up orientation as required.

Please understand that the SCPE schedule may have to change for a multitude of reasons. You will be informed promptly if this is necessary.

**Removal from SCPE**

Any student who has willfully, accidentally, or unwittingly endangered the life of a patient, staff, peer, or him/herself during a SCPE will be removed from the SCPE immediately. The incident will be reported to the Director of Clinical Education and/or the Program Director for appropriate action.

**Attendance/Holidays/Pregnancy**

Students are expected to work the clinical hours set by the preceptor. Students adjust their schedules according to the desires of the preceptor and available learning opportunities. Preceptors determine when and where students work, when the workday begins and ends, and if students take call. This includes nights, weekends and holidays. Only in cases of family emergency, illness, or injury, will you be excused from your SCPE. Should this need arise, you must notify both the preceptor and the Director of Clinical Education. Additionally, you must complete the absence form and return it to the clinical office. Routine medical/dental, other business appointments, vacations, weddings, or other personal events are not acceptable absences from SCPEs. A maximum of two days will be granted for illness during a SCPE. Students will be required to make up lost hours due to illness or other unplanned, excused absences.

Absences due to illness of three or more consecutive days require medical clearance. Medical clearance must be completed by a licensed physician, physician assistant, or nurse practitioner and submitted to the Director of Clinical Education. Students will not be allowed to return to their SCPE sites without this clearance. Prolonged absences may require a leave of absence from the clinical education experience. In the event of a leave of absence, the student will work with the Director of Clinical Education and his/her advisor to specify the terms and conditions of the leave as well as conditions under which the student may resume their clinical education experience. The final determination of whether a student will be required to take a leave of absence or withdraw from a SCPE and repeat it following the clinical year or in place of an elective will be made by the Student Progress and Promotions Committee.

**Holidays**

As stated above, the hours worked are determined by the Clinical Preceptor, which includes holidays. If the clinic is open and operational and your preceptor is working, you are expected to also be present and working. In the event of religious holidays, the student must first seek approval from the Director of Clinical Education
before making any arrangements with the clinical facility. Students will be required to make up clinical hours lost due to religious holidays.

**Unexcused absences will not be tolerated and may result in disciplinary action and a failing SCPE grade.**

**Pregnancy**

There are areas of clinical medicine and clinical practice that present hazards or potential danger to an expectant mother and/or unborn child. A student who is pregnant at the time of matriculation, or becomes pregnant at any time before graduation, is required to inform the Director of Clinical Education and their faculty advisor. SCPEs will be adjusted as much as possible to minimize stress on the mother and baby. The preceptors and sites may have their own guidelines/policies regarding pregnant students and the program has no authority over a clinical site’s policies. If an issue arises, the program will review each instance on a case-by-case basis. Missed time on SCPEs, return to campus conferences, lectures, or other program requirements due to pregnancy will be treated as any other absence.

**Clinical Year Assignments**

The clinical year assignments are structured to allow the PA program to determine early on if the student is in danger of failing a SCPE, to allow the student to continue to prepare for the PANCE exam, sharpen and refine critical analysis skills, and to demonstrate the professional ability to submit documentation on a deadline.

Every 4-week SCPE requires the following:

1) EXXAT Data Submission - due every Sunday by 9:00 pm EST for the preceding week
2) Final Preceptor Evaluation - due Friday of week 4
3) Student Evaluation of Site - due by Friday of week 4
4) End of SCPE Exam - completed on the day following completion of the SCPE

In addition to the above, during the clinical year the student will be required to submit three topics for case presentations during their elective SCPE by Friday at 6 pm of the second week of the SCPE. The Director of Clinical Education will choose which case that he/she wants the student to present. The student will then submit a write-up of the case along with a PowerPoint presentation to be presented at that month’s EOR day to their classmates. The write-up and PowerPoint presentation are due to be submitted to the Director of Clinical Education by 6 pm on the Wednesday immediately before the EOR day. The grading rubric can be found in the Elective SCPE syllabus.

**Preceptor Evaluations**
The preceptor will complete an end of SCPE evaluation that is a standardized form with 12 categories of expected student competencies, each scored on a scale of 1-5. It will be completed by the preceptor and returned to the program on Friday of the fourth week. It is the student’s responsibility to see that the evaluations are completed and sent to the PA program office.

**Return to Campus for End of Rotation (EOR)**

All students are required to return to campus at the end of each SCPE for exams, clinical skill testing and other activities as planned. The clinical skills testing conducted on campus will be universal in nature and graded pass/fail. This testing is in addition to the SCPE specific clinical skills testing that is part of the SCPE grade.

**Exxat Data Submission**

Students will be provided an introduction and opportunity to become proficient at using Exxat during the clinical year orientation program. Exxat data submission must be completed before 9:00 pm EST Sunday for the preceding week of SCPE. The week is defined as Sunday through Saturday for the purpose of submitting Exxat logs.

**Written Assignments**

Students are expected to submit one each of a SOAP note and comprehensive history and physical exam for each rotation. The exception to this is in the Emergency Medicine and General Surgery rotations, where the comprehensive H&P will be replaced with an admission or discharge note.

**Student Evaluation of Site**

This evaluation is to be completed for every preceptor/site at the end of each SCPE. It is located under the survey section of the EXXAT program. We value your opinion of preceptors and sites and use this evaluation in determining the future use of preceptors and clinical sites.

**Elective Case Presentations**

**Submission of topic**

- **Two (2) weeks prior to your scheduled presentation date**, submit 2 -4 patients of interest for the presentation to the Director of Clinical Education. This submission must be made via e-mail.
- The patients submitted must be patients on whom you completed the initial evaluation and work-up. There should be diagnostic studies associated with the case. Therefore, you will be familiar with all aspects of the case and should be able to give a complete presentation and answer most questions regarding the case. Pick a patient who has a diagnosis that
would be of interest to you and you think your classmates would find interesting.

- For each patient, submit a full SOAP note, including pertinent radiology and laboratory findings, and an explanation of your role in the case (initial H&P, admitting H&P, first assist in the OR, consulted on the case, etc.).
- The Director of Clinical Education will review your patients and select which you are to prepare for formal presentation utilizing PowerPoint.

**One (1) week prior to your presentation**, submit to the Director of Clinical Education a copy of your PowerPoint presentation.

**Presentation of topic**

The entire case presentation should take about 10 minutes. Questions from classmates and the faculty grader will be answered after case presentation.

The presentation will be made to at least one (1) faculty member and the second year students. The presentation will occur at a scheduled time on EOR. The presentation will be graded by the faculty utilizing the Case Study Presentation Rubric (found in Elective SCPE syllabus).

**Site Visit for the Student**

A PA faculty member may visit students during SCPEs. The site visit evaluates the student’s patient interactions and clinical reasoning. Medical documentation will also be reviewed during these visits. Site visits may be announced or unannounced. At least two formal site visits will occur during the clinical year, although more visits may occur at the request of the student, preceptor, or faculty.

If the visit is announced, the student should notify the preceptor ahead of the scheduled visit. When the faculty member arrives, the student should introduce the faculty member to the preceptor and appropriate support personnel. The student should be prepared to answer questions and present a case to the preceptor or faculty. The student will discuss the treatment plan, evidence based issues, referrals, patient education and follow-up management.

Clinical site visits are graded as Honors, Pass, or Fail based on objective performance and preceptor comments. Students that receive a failing grade will have additional site visits during their clinical experience.
Section 3  
Grading Policy

Clinical Year Grading Policy

Each REQUIRED SCPE will be graded in the following manner:

- End of SCPE Preceptor Evaluation: 45%
- EOR Exam or Case Presentation: 35%
- Documentation/completion of: Kaplan/Rosh Questions, Patient and Procedure logs, and student Evaluation of Site/Preceptor: 10%
- EOR OSCE/Practical Exam: 10%
- Total: 100%

Regardless of the student’s calculated grade for a particular SCPE, if the preceptor or faculty has identified serious deficits in any area of the student’s performance, including professionalism, the Student Progress and Promotions Committee, may take action ranging from counseling the student to a recommendation for dismissal from the program.

Requirements for Successful Completion of the SCPE

1) Students must receive an average of 7 or higher on a 9.55-point scale on the end-of-SCPE preceptor evaluation. Any scores below 6 mandate a meeting with the Director of Clinical Education and/or faculty advisor to discuss appropriate remediation.

2) Students are required to achieve a passing score on all end of SCPE exams. If the student scores fails an end-of- SCPE exam, they will be required to meet with the Director of Clinical Education or their faculty advisor to identify deficient areas. The student will be provided supplemental study materials and will have the opportunity to sit for a repeat exam after completing the additional preparation. The student will be permitted to advance to the next SCPE, but will be required to sit for the remediation exam at the end of two weeks through the next SCPE. If the student passes the remediation exam, the score will be recorded as a 70. A student who does not attain a passing grade on the remediation exam will fail the SCPE and be required to repeat it at another clinical site.

3) Any student that has received a failing grade (see above) for a SCPE or twice fails an end-of- SCPE exam will be referred to the Committee for Student Progress to discuss their future in the program. The Committee may dismiss the student with or without the option to reapply, decelerate the student with the option of repeating the failed SCPE at the conclusion of
the clinical year, or permit the student to repeat the required SCPE in place of their elective. The student should note that a delay in graduation could result in additional tuition.

**Grade Notification Policy**

The Director of Clinical Education maintains grade records in the program office. Grades will be posted once all of the scores have been tabulated.

**Academic Probation and Deceleration**

All students in the USC PA Program are required to achieve a 70% or better average in each of their SCPEs and an overall GPA of 3.0 or higher to progress and graduate from the program. If a student is identified as having deficiencies they will be provided supplemental study material and offered additional faculty instruction. If a student receives an average end of SCPE preceptor evaluation below 7, on a 9.5 point scale, the student will receive a failing grade for that SCPE. At the discretion of the Student Progress and Promotion Committee, the student may be afforded the opportunity to repeat the SCPE at another clinical site. If a student fails the end of SCPE examination, the student will be offered an opportunity for remediation. It will consist of counseling with the Director of Clinical Education to identify areas of deficiency and the provision of supplemental study materials. A remediation examination will be scheduled during the upcoming SCPE. Students who fail a SCPE or two end of SCPE examinations will be placed on academic probation for the remainder of the clinical year.

Any student that has received a failing grade for a SCPE or twice fails an end of SCPE exam will be referred to the Student Progress and Promotion Committee to discuss their future in the program. The Committee may dismiss the student with or without the option to reapply, decelerate the student with the option of repeating the failed SCPE at the conclusion of the clinical year, or permit the student to repeat the required SCPE in place of one of their electives. The student should note that a delay in graduation will result in additional tuition.

Any student who is unable to complete a SCPE due to extenuating circumstances, such as major illness or injury, will be required to complete the entire SCPE at the end of the scheduled clinical year or in place of their elective. The student should note that any delay in graduation will result in additional tuition charges. A grade of incomplete will be recorded until the SCPE is repeated.

**Academic Grievance- PA Program (A3.11 and A3.17d)**

See: [www.sc.edu/policies/staf630.pdf](http://www.sc.edu/policies/staf630.pdf)

**Student Grievance – Non Academic**

See: [http://www.sc.edu/policies/ppm/staf627.pdf](http://www.sc.edu/policies/ppm/staf627.pdf)
Academic Integrity

The university expects all students to adhere to the academic honesty policy located in the student handbook. The principle of the honor code assumes that no student will cheat, nor tolerate cheating by classmates. This means that in addition to the most obvious forms of cheating, such as copying someone else’s answers, you may not share any of the information that was on a test with a classmate.

Unlike the first year of the PA Program when the entire class took tests at the same time, clinical exams are taken in the order of your individual SCPEs and all of the exams are administered at the end of a SCPE. All students are obligated, therefore, not to discuss any aspect of the exam they have taken with another student.

In addition, the honor code requires that you bring to the attention of the faculty any incidents of cheating. To have knowledge of academic dishonesty without reporting it is considered the same as actively cheating. The physician assistant program administration does not tolerate any form of cheating and may dismiss any student found guilty of the charge of academic dishonesty.

The integrity policy applies to the attendance policy during SCPE’s as well – you are expected to complete approximately 160 hours of Supervised Clinical Practical Experience under a licensed provider.

Professionalism and Ethical Conduct

As members of the health care community, PA students are expected to behave in a manner consistent with the principles and obligations inherent in professional practice. Professional maturity, integrity, and competence are expected of students in every aspect of the clinical setting with preceptors, coworkers, and patients. Students are obliged to practice diligence, loyalty, and discretion in the patient-provider relationship.

The USC PA program subscribes to the AAPA code of ethics. The basic guidelines of the policy are listed below.

- Physician assistants hold as their primary responsibility the health, safety, welfare, and dignity of all human beings.
- Physician assistants uphold the tenets of patient autonomy, beneficence, nonmaleficence and justice.
- Physician assistants recognize and promote the value of diversity.
- Physician assistants treat equally all persons who seek their care.
- Physician assistants hold in confidence the information shared in the course of practicing medicine.
- Physician assistants assess their personal capabilities and limitations, striving always to improve their medical practice.
- Physician assistants actively seek to expand their knowledge and skills, keeping abreast of advances in medicine.
• Physician assistants work with other members of the health care team to provide compassionate and effective care of patients.
• Physician assistants use their knowledge and experience to contribute to an improved community.
• Physician assistants respect their professional relationship with physicians.
• Physician assistants share and expand knowledge within the profession.

Students are required to read the complete document on the AAPA website at [www.aapa.org](http://www.aapa.org). After you have reviewed these guidelines please sign the signature page, which is located in the back of the handbook. This document should be submitted to the program office.

Some behaviors or patterns may raise concerns as to the student’s suitability to continue in this program of study. Inappropriate behaviors for a health profession student may include, but are not limited to, breaching patient confidentiality, using illegal or synthetic drugs or abusing controlled substances, “dating” or becoming sexually involved with a patient, preceptor or staff member, undertaking a procedure or scope of practice beyond that of a student, disobeying or showing disrespect for preceptors or faculty, showing a judgmental attitude toward patients, or revealing a lack of concern or compassion in practice. All cases involving alleged misconduct by PA students will be considered by the Student Progress and Promotions Committee. The committee may recommend possible disciplinary action that may range from individual counseling to dismissal from the program.

Clinical Year Student Handbook Receipt

Release of Information

AAPA Professionalism Statement

Clinical Year Student Handbook Receipt

I acknowledge that I have received a copy of the Clinical Year Student Handbook for the Physician Assistant Program at USC School of Medicine. I understand that I am responsible for the information contained in this handbook and am expected to abide by the policies and procedures as stated in this handbook. I also understand that, at any time, the USC School of Medicine Physician Assistant Program may change a policy or procedure, and that I will be notified in writing and asked to replace the current policy or procedure contained in this handbook with a new or revised policy/procedure.

I also acknowledge that the Clinical Year Student Handbook not only contains information that is helpful to me as a clinical year student in the USC School of Medicine Physician Assistant Program, but also contains information about graduation, licensure, and certification. Therefore, since this handbook may be the only source of such information, and will be referred to by the faculty of the USC School of Medicine Physician Assistant Program, I will keep this handbook available for use throughout my clinical education in the program.

Consent for Release of Student Information Form

NCCPA Personal Information Release

I authorize the USC School of Medicine PA Program to release to The National Commission on Certification of Physician Assistants (NCCPA) my name, social security number, date of birth, gender, address, email address, graduation date and any other information that they may require to ensure my eligibility to take the PANCE.

Initials_______

Criminal Background Checks and Drug Screening

Certain federal, state and local regulations now require students to provide criminal background checks and, in some cases, drug screen results to prospective clinical sites. I authorize the USC School of Medicine PA Program to release the results of my background check and/or drug screen to clinical sites and/or preceptors as needed to facilitate scheduling of SCPEs.

Initials_______

Release of Immunization Information and TB Test Results

I authorize the USC School of Medicine Physician Assistant Program to release my personal information regarding immunization status and TB test results to preceptors, hospitals, or other institutions that require that information to allow me to function in the role of a PA student in their areas of authority.

Initials_______

I authorize the USC Physician Assistant Program to release my information as outlined in the above paragraphs.

Guidelines for Professional/Ethical Conduct for the PA Profession

I understand and acknowledge that professionalism is an important factor in the PA profession and agree to abide by the following guidelines as set forth by the American Academy of Physician Assistants.

- Physician assistants hold as their primary responsibility the health, safety, welfare, and dignity of all human beings.
- Physician assistants uphold the tenets of patient autonomy, beneficence, nonmaleficence and justice.
- Physician assistants recognize and promote the value of diversity.
- Physician assistants treat equally all persons who seek their care.
- Physician assistants hold in confidence the information shared in the course of practicing medicine.
- Physician assistants assess their personal capabilities and limitations, striving always to improve their medical practice.
- Physician assistants actively seek to expand their knowledge and skills, keeping abreast of advances in medicine.
- Physician assistants work with other members of the health care team to provide compassionate and effective care of patients.
- Physician assistants use their knowledge and experience to contribute to an improved community.
- Physician assistants respect their professional relationship with physicians.
- Physician assistants share and expand knowledge within the profession.

I have reviewed the preceding guidelines along with the full list of detailed guidelines from the AAPA website at www.aapa.org. I fully understand and agree to abide by these guidelines in their entirety.

Forms

On-site Faculty Visit

Absence
USC Physician Assistant Program - Student Clinical Site Visit Form

- The purpose of the student site visit is to verify the evaluations given by preceptors and determine if the student can function at a minimum standard at the clinical site.
- Faculty members of the PA Program will conduct the site visits.
- The visit will generally be announced in advance; however, unannounced visits may occasionally occur.
- The student may be visited during the clinical year. Additional site visits may occur at the preceptor’s request, the student’s request, or if the student fails a visit or SCPE.
- Site visits are graded on the following scale: Honors, Pass, Fail.
- The site visit consists of an interview, case presentation and documentation review.
- The faculty may or may not accompany the student during the interview with the patient.

**Preceptor Interview:**
1) Is there anything concerning about the student’s conduct?

2) Do you feel this student was prepared for this SCPE? What additional skills/knowledge should the student have prior to this type of SCPE?

3) How is the student being supervised? Are all the patients seen by the student also seen by the preceptor? Are all the student’s notes co-signed?

4) Did the PA program adequately prepare you for this student?

**Facilities Interview:**
Do any of the ancillary personnel have questions/concerns/problems/suggestions?

Site Visitor: Remember to update the Preceptor Qualification Form for this site.
USC Physician Assistant Program
SCPE Absence Form

This form is to be completed any time a student is absent from SCPE for any reason. It should be faxed to the program office as soon as possible.
