

UofSC SOMG SOARING Summer Seminar Series 2021 (6 weeks)

All seminars will be from **Noon-1:30 PM**. The seminars will all take place virtually via WebEx. The WebEx links will be sent out via the Student Affairs newsletter each week. Recordings of seminars will be posted on the Student Research Canvas Page.

All students, faculty, staff, colleagues, etc. are welcome to attend these seminars.

All SOMG M1 students participating in research through the SOARinG program are required to attend the seminars. Attendance will be taken. If you cannot attend a seminar, then please plan to watch the recorded session and then send an email to studentresearch@greenvillemed.sc.edu with a short (200-250 words) summary of what you learned from the seminar.

Note: All SOMG Summer Scholars (fellowship recipients) are required to present a journal club in this seminar series. These will be group presentations. Shannon Ellis or Dr. Chosed will reach out to you directly to schedule these on one of the three dates listed.

Schedule:

Friday, May 28th:

- Topic 1: What is IRB? [Janice Piazza, Director of Prisma Human Research Protection Team]
- Topic 2: How to read a research article and present it [Dr. Fowler]
