**LCME Standards**

- 10.6 – Content of Informational Materials
- 12.3 – Personal Counseling / Well-Being Programs

**Scope**

University of South Carolina (UofSC) School of Medicine Greenville students

**Policy Statement**

The UofSC School of Medicine Greenville recognizes that chemical dependency represents a problem of national proportions and that medical students may be at increased risk.

The UofSC School of Medicine Greenville is therefore committed to:

- Providing an integrated substance abuse curriculum to medical students as a component of their medical education
- Promoting student wellness by identifying and assisting students who may be chemically dependent
- Providing medical students with information regarding confidential chemical dependency treatment programs that will not jeopardize their professional career goals.

**Reason for Policy**

To provide UofSC School of Medicine Greenville students with clarity on chemical dependency

**Definitions**

- **Substance abuse:** Characterized by the insidious, progressive and often patterned use of alcohol or a drug consumed in amounts and/or via methods which are harmful and potentially life-threatening.
- **Impairment:** Recurring difficulty associated with alcohol or drug abuse; Problems may occur in any of

several domains, including interpersonal (family or other relationships), educational, legal, financial or medical.

- **Substance abuse range of behaviors include:**

- Absences from class, clinical clerkships and electives
- Repeated tardiness in the initiation or completion of assigned responsibilities
- Binge drinking
- Unprofessional behavior while under the influence of drugs or alcohol
- Traffic accidents and arrests for driving under the influence
- Unsuccessful attempts to reduce chemical use
- Receipt of criticism about alcohol and/or drug use from family members, fellow students, faculty members, medical residents and other clinical supervisors
- Continued alcohol and/or drug use in spite of adverse consequences

## **Procedures**

Every student entering or continuing his/her studies in the UofSC School of Medicine Greenville acknowledges and consents to taking a drug screen administered for probable cause or as a requirement for a rotation or educational activity.

The UofSC School of Medicine Greenville respects the right to confidentiality of recovering students and will assist them to continue their education. Impaired students who fail to cooperate with appropriate treatment programs are subject to disciplinary actions up to and including dismissal.

## **Sanctions**

Students whose drug and/or alcohol use impedes academic progress and clinical training, leads to breaches of professional conduct and/or leads to arrests and criminal charges will face sanctions from the UofSC School of Medicine Greenville.

The UofSC School of Medicine Greenville adheres to the [UofSC Student Code of Conduct](#) and the partner health system (GHS) Policy: S-106-5 Drug Free Workplace. A medical student who by inappropriate behavior, appearance or work performance as determined by associates, team members or faculty of the school provides reasonable suspicion that the Drug Free Workplace policy has been violated will be suspended from patient contact and placed on administrative leave pending evaluation by the Student Evaluation and Promotion Committee (SEPC). SEPC may recommend a Behavioral Monitoring plan to ensure the wellness of the student and patients. The Behavioral Monitoring plan may include:

- Mandated counseling at Partner Health System Employee Assistance Program (EAP)
- Required random drug and alcohol screening
- Other required treatments as stipulated

The student will not be able to participate in clinical work until his/her drug and alcohol screens are negative. Once drug and alcohol screens are negative, SEPC and the Office for Student Affairs will assess the student's readiness to resume clinical responsibilities.
