

Undergraduate Economics Program Learning Goals

Mission Statement

The mission of the Bachelor of Science degree with an emphasis in Economics is to provide students with the intellectual and analytical tools necessary to function in a dynamic economy. Students will be given training in qualitative and quantitative methodology which will facilitate understanding of Economics theory and its application to the real world. Students will acquire the knowledge and skills necessary to enter graduate school or law school and/or follow a career path in the public or private sector.

Learning Goals

1. Our students will acquire mastery of core microeconomic theories and concepts.
2. Our students will acquire mastery of core macroeconomic theories and concepts.
3. Our students will develop quantitative proficiency.
4. Our students will be able to apply their understanding of economics concepts and quantitative knowledge to analyze real-world problems and evaluate policy alternatives.
