Ozgur Sahin, associate professor in Drug Discovery and Biomedical Sciences, along with his team recently published an article in Nature Communications on their research targeting a chemotherapy-resistant protein in breast cancer. Read more.

From the Dean's Desk

As we continue to navigate this challenging time, I am proud to share that our College of Pharmacy will have a significant role in COVID-19 testing for our Gamecock community thanks to the outstanding research efforts led by Phillip Buckhaults, associate professor in Drug Discovery and Biomedical Sciences, along with Michael Strahan, associate professor and Michelle Hyatt, professor. Thank you to Nephron Pharmaceuticals Corporation and alumni Lou and Bill Kennedy for donating a robotic liquid handler supporting these efforts. Read the complete story here.

Be safe. Stay well.
Dean Stephen J. Cutler
College of Pharmacy

Ph.D. Graduate Focuses on Improving Population Health

When Eric Chinaeke came to the U.S. from Nigeria, he had already spent several years studying pharmaceutical sciences and public health.

Students Show Strong Performance on PCOA

Six UofSC pharmacy students earned scores in the 95th percentile or higher on this year’s Pharmacy Curriculum Outcomes Assessment exam.

A Year in Review - SNPhA at UofSC

The Student National Pharmaceutical Association at UofSC highlights their successes from the 2019-2020 year and what’s in store for the next school year.
