

THE UofSC DEPARTMENT OF COMMUNICATION SCIENCES AND DISORDERS
& THE DEPARTMENT OF THEATRE AND DANCE PRESENT

don't have a stroke on a friday night

BY PLAY ON WORDS: AN APHASIC DRAMA GROUP

Aphasia is an acquired language disorder caused by stroke or other brain damage that affects about two million Americans. South Carolina is part of the "Stroke Belt," a group of Southeastern states with particularly high rates of stroke occurrence, and was reported to have the sixth highest stroke death rate in the nation in 2016.
